DETAILED ACTION

Acknowledgement is made of the remarks/amendments filed 4/28/2009. Claims 1, 3-12 and 17-19 are pending.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Myers on 6/30/2009.

Claims 1, and 3-12 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 17-19, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 8/20/2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be

subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The application has been amended as follows:

Claims:

Claim 17 has been amended as follows:

A method of treating a mammal to ~~prevent or~~ alleviate the pathological effects of Osteoporosis or Psoriasis wherein the method comprises administering a pharmaceutically effective amount of at least one compound of claim 1.

Claim 17 should read as follows:

A method of treating a mammal to alleviate the pathological effects of Osteoporosis or Psoriasis wherein the method comprises administering a pharmaceutically effective amount of at least one compound of claim 1.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to compounds that are novel and non-obvious over the prior art which the specification enables for a method of treating a mammal to alleviate the pathological effects of Osteoporosis or Psoriasis. See specification

beginning at page 96. US Patent No. 6218430 to Allegretto et al. (as per Applicant's IDS dated 5/12/2006) is regarded as the closest prior art and discloses the use of compounds having a bisphenylmethane structure to be useful as vitamin D3 mimics. The compounds of Allegretto et al. differ from the instantly claimed compounds in the nature of the side-chain having the R_{BOH} moiety.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1, 3-12 and 17-19 are allowed.
